CLOUDLINE LOGISTICS

Achieve Efficient, **Cost-Effective Government Operations**

with CloudLine's Full-Service Logistics Solutions

Government agencies need to access the right mission-critical materials at the right time in order to effectively serve the public. As a result, your organization strives to dynamically store, deploy and manage a variety of physical and IT assets on a regular basis. You require a certified partner to streamline this process with the highest levels of efficiency and security.

CloudLine understands the logistics needs of the complex and compliance-driven government sector. Our flexible solutions support the unique needs of government agencies like yours, allowing you to tap into our vast transportation network, high-visibility asset storage and management, white glove delivery, relocation services and much more. **We pride ourselves on being a true partner to government agencies, flexibly serving their logistics needs every step of the way.**

Certified Women Business Enterprise (WBE)

Our subcontract of full logistics services satisfies Women Business Enterprise (WBE) utilization requirements on most government contracts.

Relocation Services

Move smarter with our logistics team, who will rapidly remove, transport and redeploy complete office environments on your schedule, all while updating you with real-time alerts.

Transportation & Distribution

Streamline transportation to reduce costs while enjoying high-visibility tracking through an available custom web portal as well as just-in-time asset delivery, unpacking and deployment.

Temporary Asset Storage & Deployment

Safely store and manage re-usable government assets such as exhibit materials, safety signage and other resources in our secure, off-site warehouse locations.

Disposal & Recycling of Unwanted Assets

Allow us to properly dismantle, transport and dispose of your unwanted assets and IT infrastructure without disrupting your work, ensuring that sensitive information is properly removed and all associated certifications are provided.
